Irma Win 4 out of 5 Games in Past Week

In a game played against Victoria on Tuesday, January 20, the league-leading Irma team came out on the long end of a 17-2 score.

Starry centreman Ron Lovig scored 7 goals for the winners. The game was played in the Viking Arena, and although the evening was a little frosty, there weren't enough fans in the stands to muffle the echoes of the Irma shots denting the net behind goalie Ralph Child. The game ran very smoothly with only minor penalties called by the referee. The other Irma goal scorers were by A. Glasgow, 4; R. Glasgow, 2; B. Fischer, 2; G. Lovig, 1; J. Ganie. Butch Fischer led the winners in the assists with 5. Other assist-getters were R. Prior, 3; A. Glasgow, 3; C. Spornitz, 3; R. Lovig, 2; J. Ganie, 2; G. Lovig, 1.

Line-up

IRMA: Goal, M. Miller; Defense, J. Kennedy, C. Spornitz, J. Ganie, B. Patterson, S. Larson; Forwards, R. Lovig, G. Lovig, B. Fischer, A. Glasgow, R. Glasgow, R. Prior.

VIKING: Goal, R. Child; Defense, G. Hoines, B. Cikuluk, D. McArthur, H. Watson; Forwards, V. Volner, D. Briggs, J. Walker, D. Anderson, R. Henderson, D. Otto, G. Brissard, N. Josephson, 1 goal. Point-getters for Viking: V. Volner and N. Josephson, 1 goal each; D. Briggs 2 assists.

The Irma Senior Hockey Club lost their first game last Wednesday, Jan. 21, at the hands of the Chauvin Regals at Chauvin. The home boys were beat 8 to 5.

With the temperature well below zero, some of the boys suffered frozen toes and ears. The ice was in very bad shape to be playing hockey on with big cracks breaking out all over. The players had to be very careful where they skated. The Chauvin team was led by their highly-rated star centre, Father William, scoring 6 goals. Other scorers for Chauvin were M.

Weekly Inspirational Corner

Sponsored by an Irma Times reader

As ye have therefore received Christ Jesus the Lord, so walk in Him:

Rooted and built up in Him, and stabilized in the faith, as ye have been taught, abounding therein with thanksgiving.

Beware lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not after Christ.

For in Him dwelleth all the fulness of the Godhead bodily.

And ye are complete in Him, which is the head of all principalities and power: —Col. 2:6-10.

Budjack, H. LaGroix and M. Hancock.

Goal scorers for the short-handed Irma squad were R. Prior with two and singles going to A. Glasgow, G. Lovig and S. Archibald. Missing from the Irma line-up were B. Fischer, G. Prosser and J. Kennedy.

On Saturday, Jan. 24, Irma were hosts to the Chauvin Regals in a return game with Irma winning 9-3. Again Irma was led by R. Lovig who found the range for 5 goals in a hard-fought game. Irma led 3-1 at the end of the first period with a penalty going to each team. The second period started out fast with both teams scoring in the first couple of minutes with G. Lovig finishing off a pass from B. Fischer and Budjack getting Chauvin's goal. Both teams made some good pushes down to the other end with Irma getting 2 more goals to lead 6-2 at the end of the second period.

The third period saw some heavy body checks handed out by both teams. A very good crowd watched and cheered the local boys on to outscore Chauvin 3-1 in the final period.

Irma point-getters: R. Lovig 5 goals, I. assat; G. Lovig 2 goals, 3 assists; B. Fischer 1 goal, 2 assists; C. Spornitz, 2 assists; A. Glasgow, 2 assists; J. Ganie 1 goal.

On Monday night our local boys hosted the Chauvin team again and won the game by a score of 12-6. It was another hard-fought game with lots of action. The referee handed out 9 penalties—3 to Chauvin and 6 to the local boys with J. Ganie getting 5 minutes in the first period for fighting and 2 minutes and a one-minute misconduct in the third period for roughing up the referee.

With Irma being short handed two men at one time in the second period, they showed a strong come-back and with the line of R. Lovig, G. Lovig and B. Fischer making some very nice passing plays to connect for 7 goals. With the weather being somewhat milder, again a very good crowd turned out to watch a real fast, hard-hitting game. The local boys are glad to see you all turn out to cheer them on.

Irma point-getters were: G. Lovig 3 goals, 3 assists; R. Lovig 3 goals, 2 assists; R. Prior 3 goals, 1 assist; B. Fischer 1 goal, 2 assists; A. Glasgow 3 assists; R. Glasgow 1 goal, 1 assist; J. Ganie 1 goal, 1 assist; B. Patterson 2 assists.

WEDDING BELLS BELTON — BROWN

At an attractive ceremony in the United Church on Saturday, January 16th, at 2 p.m., Marion Brown, daughter of Mrs. Dorothy Brown and the late John Brown, became the bride of Ronald V. Belton, son of Mr. and Mrs. W. A. Belton of Jarrett.

Preceding the ceremony, Mrs. Louis Merta sang "The Wedding Prayer."

The Throne Swallow performed the double-ring ceremony.

Given in marriage by her uncle, Mr. Wylie Brown, the bride chose a floor-length bouquet gown of French lace and net over satin, with a pleated semi-train.

The full skirt was styled with petals of lace and tiny lace medallions centred with sequins and pearls were scattered on the skirt.

The fitted bodice of lace with lily-point sleeves was designed with a scalloped sabrina neckline inlaid with pearls and dotted with sequins. A tiara of tulle held in place her finger-tipped veil which was also misted with pearls and sequins.

Her only jewelry were drop pearl earrings, gift of the groom. She carried a cascade bouquet of red roses and lily of the valley.

The bride's attendants, Miss Annie Golobod and Miss Ethel Meeks were cocktail gowns of lace net in shades of coral and hyacinth blue with matching bandeaus and bouquets of apple blossoms.

Mr. Glenn (Pete) Belton, brother of the groom and Mr. Ronald Brown, brother of the bride attended the groom.

Ushers were Mr. Ernest Reishus and Mr. William Belton.

During the signing of the register, Mrs. Merta sang "I'll Walk Beside You."

Mr. Ken Hilliker played the wedding music.

For her daughter's wedding, the mother chose a dark beige afternoon dress trimmed in a light pink, with a pink rose corsage and light beige accessories.

Funeral Held for Well Known Irma District Lady

MRS. E. J. JONES

The Irma district lost one of its best known pioneer residents when Mrs. E. J. Jones passed away on Thursday, January 15 while enroute to the Mannville hospital.

Mrs. Jones, the former Nellie Stone, was born at Ilchester, Somerset, England, on May 13, 1881. She came to Strathcona in 1907 to join her husband, Albert Pitt. In 1908 they came to their homestead, north of Irma, in what is now known as the Irma district. Mr. Pitt died in 1910. His widow, with a small children, continued to live on the homestead. In 1912 she was married to Mr. E. J. Jones.

Over the years Mr. and Mrs. Jones built up one of the finest farms in the community.

Mrs. Jones was a faithful and loving mother to her large family, yet managed to take a keen interest in the welfare of others. She was a staunch supporter of the United Church, the British & Foreign Bible Society, the W.M.F. and the W.I. and made many friends during the fifty-one years she spent in this community.

Her youngest son, Flying Officer Cyril John Jones of the RCAF was reported missing over enemy territory in March 1945. Her husband predeceased her on March 14, 1949.

Left to mourn are 4 sons; Fred Pitt, Stanley, Albert and Edgar Jones of Irma, and four daughters, Misses Annie Pitt of Calgary, Mrs. Archibald Cook of Toronto, and Mrs. R. J. Gower of Toronto, and Mrs. Edna Smith of Calgary, also a brother-in-law, W. C. Williams and his wife, Iris.

Funeral services were held from the Irma United Church on the New Year's Day.

A special number, "The Old Rugged Cross" was sung by the church choir.

Pallbearers were Messers J. F. Bars, Robin Currie, Ivan Dugay, Leigh Currie, Gordon Egerton and Erling Larson.

Interment was made in the Irma cemetery. Moyers Funeral Home, Vermilion, were in charge of arrangements.

News Report From Edmonton

By Ken Mason

EDMONTON — Look for an up-swing in Alberta's economy during the coming year.

That's the advice of the Alberta bureau of statistics, which has issued its annual review of business conditions. It is based on a study of conditions in 1958, coupled with probable developments during the coming 12 months.

According to the bureau, business activity in Alberta was well past the low point in the recession by the end of 1958, and since midsummer the economic recovery has been gaining momentum.

Some sectors of the economy were remarkably buoyant in a year which has gone into the record books as a recession year. For example, construction activity reached an all-time high. Building permits issued by the 10 cities in Alberta were worth almost \$200,000,000. Permits issued by other municipalities totalled more than \$60,000,000.

Oil production continued to be a dark spot in the otherwise bright economic picture. Crude oil output dropped to 112,300,000 barrels in 1958 from 127,492,016 in 1957, mostly due to a decline in shipments to the U.S.

But the bureau noted that 1958 oil well drilling activity had increased over 1957 and crude oil production at the end of the year appeared to be increasing substantially once again.

Production of all other minerals was up for the year, and natural gas output increased to 245 trillion cubic feet from 183 trillion a year earlier.

"Particularly significant is the underlying stability evidenced in all industries in a so-called recession year," says the bureau.

From cash income was about \$44,000,000 ahead of last year. Although grain earnings were way down—indicating farmers who rely wholly or mostly on grain were feeling the pinch—the drop was more than offset by increases in livestock income.

Gross value of manufacturing during the year was estimated at \$89,000,000—an increase of \$46,000,000 over 1957. Increases were due to greater production by established firms and new firms starting production.

Total "eternal" trade for the year was estimated at \$1,245,000,000, a three-per-cent increase over the previous year. Percentage increases were higher during the late months of the year, indicating an increasing consumer optimism.

The bureau listed these reasons for predicting a bright economic picture in 1959:

The provincial government has announced a major program of institutional building; a substantial volume of industrial building has already been announced; there will be considerable pipeline building to link gas fields, and the federal government is expected to make further sums of mortgage money available in order to continue the residential building program."

THE UNIVERSITY OF ALBERTA has a new president. He is 50-year-old Dr. Walter H. Johns, who has served as vice-president for the past year and a half. He succeeds Dr. Andrew Stewart, who has resigned to become head of the new federal board of broadcast governors.

Dr. Johns, former dean of the faculty of arts and sciences, will take over his new duties Feb. 1. The Ontario-born education came to Alberta in 1938 as a lecturer in classics at the University in Edmonton.

WE'VE SPENT the past couple of weeks sitting in on hearings to decide whether Northwestern Utilities Ltd. should be permitted to increase natural gas rates.

Northwestern, which serves Edmonton and 50 other Alberta towns and cities, wants its gross revenue increased by 29 per cent. A similar inquiry is under way in Calgary, where Canadian Western Utilities has applied for an increase.

The only thing certain at this point is that the provincial board of public utility commissioners face a tough job in reaching a decision. The evidence presented has been so technical and involved some of the economists

How To Raise a Delinquent Juvenile

The police department of Houston, Texas gives to the parents of each juvenile who runs afoul of the law 12 rules for raising a juvenile delinquent.

1. Begin with infancy to give the child everything he wants. In this way he will grow up believing the world owes him a living.

2. When he picks up "bad" words or "dirty" words, laugh at him. That will make him think he's "cute." He will run off and pick up some more words that will blow the top off your head.

3. Never give him any spiritual training until he is twenty-one, and then let him decide for himself. By some logic, never teach him the English language.

4. Praise him in his presence to all the neighbours; show how much smarter he is than the neighbour's children.

5. Avoid the use of the word "wrong." It may develop in the child a "guilt complex." This will prepare him to believe that when he is punished later on for stealing cars or assaulting women that society is "against him" and that he is being "persecuted."

6. Pick up everything after him, his shoes, his books, his clothes. Do everything for him, so that he will be experienced in throwing burdens on others.

7. Let him read anything he wants. Have no concern whatever for what goes into his mind. Provide him with hygiene cups for his lips, but let his brain drink out of any dirty container for words and ideas.

8. Quarrel frequently in the presence of your children. In this way they'll be prepared for broken homes later on.

9. Give him all the spending money he wants; never let him earn his own.

10. Satisfy every craving of the child for food, drinks and everything that has to do with the sense of taste and touch, gratifying every sensual desire.

11. Take his part against policemen, teachers and neighbors. They are all "prejudiced" against your child.

12. When he gets into real trouble, always defend yourself and say "I never could do anything with him."

3rd week 15-21:

Mild weather south, cool north at start of week, with temperatures into 40°s south. Cold toward weekend with storminess at end of period. Possibly some light snowflurries north at start of period.

4th week 22-28:

Stormy on one or two days at start of week, with considerable snowfall. Temperatures will be warming at mid-week, and remaining mild through latter half of period.

—Country Guide.

In the 1946-1956 period agriculture contributed \$16,900 million to Canada's national income; manufacturing contributed \$52,600 million; mining, oil wells and quarrying contributed \$6,400 million; forest industries \$3,500 million; fishing \$750 million; construction \$10,700 million.

Make it a habit to keep your feet on the ground and you'll never have feet to fall.

even have trouble understanding it.

And how do you explain the mystery of two groups of economists studying the same data and coming up with two entirely different answers—one in favor of increased gas rates, the other opposed.

SEWING JERSEY MATERIALS

Jersey is usually sold in a tubular shape. The crease marks in jersey as it comes of the bolt are often impossible to press out. If the pattern cannot be cut to avoid these, place the crease lines in centre back or front and they will look as if they fit in with the construction lines of the dress.

Due to the elasticity of jersey, it has to be handled differently in sewing from woven materials. Seams such as shoulder and waistline seams which are subject to strain have to be taped. Seam binding, ribbon, or cotton twill tape can be used. Any of these tapes should be pre-shrunk before using.

If the jersey dress is a sheath style the skirt has to be lined. It is often advisable to line the bodice also to prevent stretching when hanging on the coat hanger. The lining used for this must be a firm weave, but still soft so that the jersey will retain its soft appearance.

Silk sewing thread has an advantage over cotton thread in sewing jersey fabric because it is more elastic. Synthetic thread is not advisable for wool since it will melt at the temperature used for pressing wool.

Collars, cuffs, skirt band, belts, etc., keep their shape if interlined. Pelion can be used for skirt bands and in stand-up collars.

No seam finish is required for jersey.

DRY CLEANING PROBLEMS:

1. Shoulder pads can be a hazard in dry cleaning. The co-prene rubber-impregnated wool shoulder pad decomposed in cleaning solvent and gave off an acid which caused discoloration and eventually deterioration of the fabric. These have almost completely disappeared from the Canadian market. Sponge rubber also causes trouble in that it swells and eventually crumbles. Sponge rubber shoulder pads withstand washing well, but not drycleaning.

2. Pigment printed designs (those which are held to the fabric by an adhesive)—some adhesives are soluble in cleaning solutions.

3. Dylon fur fabric coats shrink on contact with heat. The result is a horrifying effect like sticky toffee.

Imitation Persian Lamb is a trouble-maker too. The curls consist of a chenille yarn dyed to a cotton batting often held with a rubber cement that dissolves during the cleaning.

Bursaries and Awards Available To High School Students

For some years the High School Staff and the Executive of the Viking Home & School Association have been concerned about making parents aware of the bursaries and awards which are available to the students at Viking High School. On two occasions it has been discussed at the Home & School meetings. All notices and information sheets have been posted on the school Bulletin Board. However, the number attending the Home & School meetings has not been large; and we do feel that the parents should become acquainted with this information as well as the students.

On the whole the awards are available to students who are considering going on to University and achieve University Matriculation standing. There are however some available to students going into business colleges and to girls going into nursing. One thing to remember is, that students must make application for them and must come up to a certain standard of achievement before they are considered as possible recipients.

There are many scholarships, bursaries, awards, and grants available to high school students and graduates. A condensed list is printed here. A complete list may be obtained from the Registrar, Dept. of Education. There are also several copies at the Viking News Office.

These scholarships are available in Alberta: Agriculture, 5 scholarships ranging from \$100 to \$500; Chemistry, 3 from \$250 to \$500; Pharmacy, 2, from \$100 to \$250; Physio-therapy, 3, for \$350; Mathematics, 5, from \$150 to \$500; Food Service Administration, 1, for \$1000; Education, 9, from \$200 to \$600; Classics (Latin and Greek), 2, for \$150; Engineering, Geology and Geophysics, 9, from \$100 to \$3000; Arts and Science, 10, from \$150 to \$1500; Any Degree Course, 67, from \$100 to \$2000.

Most of these scholarships and awards are given to students of good standing. Often a need for financial aid must be shown. Sometimes interest in a special field is required.

For teacher training there are bursaries by the school board—usually \$300; these are government bursaries that amount to \$200 per year; teachers in training may get remission of tuition fees and there are bursaries and

remission of fees for University graduates if the student is eligible and makes application.

There are many awards that apply to special groups such as members of armed forces and their families, employees of certain companies children that are deaf or blind or mentally or physically incapacitated. These awards are not shown on this brief list.

There are scholarships for music and the other Fine Arts to the Banff School of Fine Arts and other similar institutions.

Besides these there is the Students' Assistance Act:

Assistance is available to students by way of grants and loans, under the Students' Assistance Act 1953. Matriculated students who contemplate entrance to the University and who can submit evidence of need should apply to the Deputy Minister, Department of Education, Edmonton, for details regarding such assistance.

Grants are available to assist needy students, and are not subject to repayment. For new students, grants in an amount not to exceed \$300 will be made to those who are able to prove need, and who have Grade XII matriculation averages of 70%. Grants are made possible through joint contributions by the Government of Canada and the Government of Alberta. Students receiving grants are also eligible for loans.

Loans not in excess of \$400 may be approved for new students prior to their enrollment at the University if they have Grade XII matriculation averages of 65% or more. The monies for the loans under the Students' Assistance Act are contributed solely by the Government of Alberta.

For further details as to eligibility, application, terms of loan, time of payment of loans, etc., write to the Deputy Minister, Department of Education, Edmonton, Alberta.

In the 1945-1946 period the personal income of Canadians increased from \$9.2 billion to \$23.1 billion, but because of inflation wholesale prices increased by 72 per cent and retail prices by 62 per cent.

Canada's first pulp and paper mill was built at St. Andrews, near Lacolle, Que.

I Am A Calendar

The Symbol of Time

Take time to think, it is the source of power;
Take time to play, it is the secret of perpetual youth;
Take time to read, it is the fountain of wisdom;
Take time to love and be loved, it is a God-given privilege;
Take time to be friendly, it is the road to happiness;
Take time to laugh, it is the music of the soul;
Take time to give, it is too short a day to be selfish;
Take time to work, it is the price of success.

BROTHERS ARE CARDINALS — Vatican City — The College of Cardinals now includes two brothers. It's the first time in 43 years that it has. The new Cardinal is Amleto Giovanni Cicognani (at right in a 1957 file photo), who, as an Archbishop, has been serving in the Holy See since 1952. He is one of 23 new Cardinals named by Pope John XXIII. His brother, Giacomo Cardinals Cicognani (at left in a photo placed in New York files in Oct. 1958) has been a Cardinal since 1953.

SEES NO WEevil — Phoenix, Arizona — Sunny Pat Fackenthal, Queen of the Valley of the Sun Cotton Pickers, shows how to harvest this southern "snow." Bless her! I'll cotton-picking hands.

WASHINGTON — President Eisenhower, at a White House ceremony, presents Mrs. Ivan C. Kinchloe Jr. with a copy of his letter to the President of 1954, in which he asked him to assign at that time to appoint his son, Ivan C. Kinchloe II, now 19½ months old, to the Air Force Academy when he reaches the right age. Mrs. Kinchloe is the widow of Ivan C. Kinchloe Jr., who died last July from injuries received in testing the world's fastest military plane.

HONORED FOR SERVICE TO MANKIND — New York — Frank P. Coe, Jr. (left) President of the National Institute of Social Sciences, presents Gold Medals to former President Herbert Hoover (center) and Robert B. Anderson (right) at the Institute's Dinner. The Medals are given annually for distinguished service to humanity. This is the first time in the organization's history that it has awarded a second Gold Medal to the same man — Mr. Hoover — who received one in 1918 for his services to famine-stricken victims of World War I.

RUM DEAL — New York — Although this looks like nothing more than a friendly meeting of two old pals, one of the "lums" is actually an actor essaying a realistic role. The actor is Jim Croce (left), who appears in the television series over ABC. The other man is a real-life character living on New York's East Side, playing a moonshiner. Croce's performance was so realistic that he was promptly elected when he strolled into a local bar.

LINCOLN SESQUICENTENNIAL STAMP — Washington — This impressive stamp, one of three being issued to commemorate the 150th Anniversary of Abraham Lincoln's birth, features a portion of the famous speech by Daniel Chester French's Lincoln Memorial in Washington. It also shows a facsimile of Lincoln's signature. The stamp will be placed on sale on May 30, 1959.

WITH THE District Agriculturist

By J. S. Duncan

Watch Those Screenings: Trimming screenings and uncleaned grain can result in the spreading of weed seeds if the trucks are not kept covered. One wants to see weed seeds spread along roads where they can spread into nearby fields. A tarpaulin properly tied down over a truck box will insure that no grain or seed will blow out while travelling. It is illegal to move screenings except in bags or properly covered, tight boxes. Protect yourself and others from weed infestations by moving screenings and grain properly.

Plumbing School:

A two-day plumbing school will be held in Chauvin on February 5th and 6th. This school starts with the well or water supply, through pump selection, pressure systems, selection of pipe, water storage, sewage systems, disposal fields, sewer lines, building drains, soil static, and surface piping and bathtubs, layout. Two qualified instructors will handle the school and there will be question and discussion periods. The purpose of this school is to give enough information for anyone to be able to plan their layout for water and sewer properly and to know what material is acceptable and best to use. The school is open to anyone who is interested, starting time 9:30 a.m.

Livestock Brands:

Anyone who has cattle should have them branded for his own protection in the event that they stray or become lost. A brand must be registered if it is to be accepted. To register a brand an application must be made to: The Recorder of Brands, Department of Agriculture, Edmonton. The cost is \$2.00 for the first four years and \$1.00 for each four years after. If you want to start using a brand in the spring, now is the time to apply for one.
